Colorado for Family Values

Amendment 2
The Beginning

Dear Friend of CFV:

Thank you for your interest in Colorado for Family Values. Enclosed is some information about the organization.

CFV is a Colorado Springs based group that was started for the purpose of giving Colorado voters the opportunity to amend the state constitution so that the behavior of homosexuality would not become a basis for granting special minority status in Colorado.

CFV supports the rights that homosexuals already have under the U.S. Constitution and Bill of Rights. It also supports the rights of parents, businesses, schools boards, property owners, etc., to **choose not to affirm** homosexuality as a viable and beneficial life style.

CFV believes that it is only fair to expect homosexuals to meet the same standards for minority status that currently recognized minority groups have had to meet. However, it is evident by the research facts (see the enclosed brochure) that they do not. Therefore, CFV and it's supporters intend to block militant homosexual attempts to obtain this status.

CFV acknowledges that this issue will be decided by somebody. Either the courts, legislature, or voters. CFV believes the voters should decide and therefore conducted a popular initiative drive to put a proposed constitutional amendment on the November, 1992 general election ballot.

We need your support. Naturally, financial support is always needed. We also need capable speakers and letter writers, area leaders and organizers. Please read the information and respond in some way. This is the people's chance to make the decision.

Sincerely,

Kevin D Tebedo
